Rome YMS

- It was founded on 20th March 2011
- By students of "la Sapienza"
- Open since the beginnings to students from "Tor Vergata" and "Roma Tre"
- It is hard to distinguish between the YMS and the association "*accatagliato*"

www.accatagliato.org

- *accatagliato* was born in 2006 as an internet site dedicated to students of Physics
- each user can participate and write (even on the homepage)
- a youtube channel (“accafilmato”)
- a facebook page
- a twitter account (@accatagliato)

accastampato

- a popular science magazine
- conceived and realized by the students of Sapienza and Roma Tre Universities
- devoted to high school students
- freely distributed on the Internet (www.accastampato.it) and via a dedicated App for iPad and iPhone.

accastampato

has two main aims:

- talking to high schools students about research frontiers
- giving undergraduate and graduate students a chance to engage with divulgation

accastampato

- started in 2010
- is mainly and preferably written by students and young researchers
- the length of the articles can vary between 8.000 characters and 3.000 characters
- we ask a detailed bibliography
- is reviewed by a Scientific Committee composed by professors of “la Sapienza” and “Roma Tre”

Scientific committee

Giovanni Battimelli
Fabio Bellini
Lara Benfatto
Stefano Bianchi
Giulia De Bonis
Riccardo Faccini
Giorgio Parisi
Francesco Piacentini
Luciano Pietronero
Antonio Polimeni
Antonello Polosa
Maria Antonietta Ricci

accastampato

- Each issue is usually presented together by the authors in schools and bookstores.
- During the European Researchers' Nights of 2010, 2011 and 2012 a dedicated issue was realized and distributed
- Thanks to the contributions of INFN, ISC and Departments of Physics of Sapienza and Roma Tre Universities, we are now able to print one issue in 100'000 copies

accastampato

- So far 51 authors wrote :
 - 11 Students
 - 16 phd students
 - 9 post doc
 - 8 researchers
 - 5 professors

Plans for the future

- We are planning to translate the September 2013 issue in English and French
- distribute this issue during the European Researchers' Night at CERN and in Frascati
- a collaboration with Poste Italiane for a possible distribution all over Italy is being discussed.

Opportunity for graduate
students to do divulgation

Why we started

- In 2008 the Berlusconi government has cut funding to research
- The students started a big strike
- We tried to explain why it is important the research

- In 2008 we organized:
 - A theatrical play (“Copenhagen”)
 - An “Open day” in the University
